Dear Sir:

Pursuant to 37 C.F.R. §1.97, Applicant hereby calls the Examiner's attention to documents listed on the attached form, which documents may be material to the examination of this application. A copy of the cited reference is enclosed herewith for the Examiner's consideration.

REFERENCE CITED HEREIN

Japanese reference JP 2003-264085 was first disclosed by Applicants in an IDS filed electronically on January 5, 2011. On that date, Applicants thought that they were submitting an English translation of this reference. However, the translation filed was incorrect and was from a different, unrelated Japanese application. Since the wrong

submitted, Applicants wish to withdraw that document from the record and re-submit JP 2003-264085 with an English abstract. Therefore, to ensure that this reference is considered, Applicants are now submitting a replacement copy of this reference, as well as a replacement 1449 form for the Examiner's entry and consideration. Applicants have no opinion as to the relevance of the English translation filed on 01/05/2011, to the present case.

No inference should be drawn that the attached list sets forth a comprehensive investigation of the prior art, that any or all are pertinent to the invention, or that any apparatus disclosed is equivalent to the subject invention.

The citation of the above-discussed documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.
